

The CanDeal Viewer has been modified to enhance the user experience and streamline the way products are accessed. The Canada tab in the navigation bar now has separate tabs for each product group: BONDS, BILLS, CMBs, PROV & CAMM.

The biggest changes have been made to the PROV bond pages. See below for more details.

Provincial Pages

Buy-side users now have the ability to filter securities by issuer by clicking the provincial tabs across the top of the Viewer; alternatively, all provincial issues can be viewed commingled under the "ALL" tab. Streamline the way you access provincial product on CanDeal by using the provincial tabs combined with maturity range buttons along the bottom of the Viewer.
